CRIME TRENDS AND ANALYSIS

JUNE 2009

Fountain Valley Reporting Districts (RD)

TIP OF THE MONTH: POOL SAFETY

With the coming summer heat, swimming pool hazards will soon become a risk to the well being and safety of young children. Every year, children drown or become physically incapacitated due to injuries received in swimming pool accidents.

To prevent an accident from happening in your pool, the following steps should be followed, some as directed by state laws and municipal ordinances, others as dictated by common sense:

- All pools must have a six-foot tall fence surrounding the pool equipped with self-latching, spring-activated gates.
- No child, no matter how proficient a swimmer, should be left unattended.
- The adult left in charge of watching children in or around a swimming pool should be a proficient swimmer.
- Do not allow anyone to dive head first into the shallow end of the pool.
- If your pool is equipped with a diving board, do not allow swimmers to engage in contests to dive the farthest out in the pool. The rise between the deep end and the shallow end of the pool bottom is steep. The possibility of diving head first into the rise of the pool bottom is real, resulting in paralyzing injuries or drowning.
- The storage of pool chemicals should be in a secure, ventilated area, away from the reach of children.
- If your pool cleaning and/or maintenance is done by a contracted pool cleaner, make sure that the gate/fence perimeter is secure after they leave.

RESIDENTIAL BURGLARY

RD 14 9600 block of Rindge between 06/25/09 @ 1800 and 06/26/09 @ 0730 hrs. Suspects entered through the garage roll up door that was left open all night. Loss was cash, wallet, driver's license, credit cards from the owners unlocked vehicle parked in the garage.
